As we wrap up 2019, may the holiday season fill your home with joy, your heart with love, and your life with laughter. Best wishes for a prosperous New Year! We are looking forward to welcoming the students upon their return on January 6, 2020.

Throughout the school year, the students participate in many fun learning activities, classroom and school wide events and presentations that we feature on the school’s FaceBook page. If you are not currently a friend on the FaceBook page, please consider “liking” or following the page keeping you informed and engaged in school activities.

The winter break is a great time to wash your child’s winter clothing, art smocks etc. Please don’t forget to send these items back to school with your child when he/she returns from the winter break. Also, please make sure that your child has the proper winter clothing to participate in and to enjoy recess during the cold Wisconsin winter. - Dr. Smith

PHONE APP COMING SOON FOR BUS STOPS!

In cooperation with GO Riteway and the Nicolet Area Transportation Cooperative affiliated school districts (Fox Point-Bayside, Glendale-River Hills, Maple Dale-Indian Hill and Nicolet Union High School), our District will have a new app available to provide you with timely information about the arrival of your child’s school bus.

This app was piloted by a few routes in the Spring of 2019 and is now ready to be rolled out for all students who ride the bus. The app is available on any device, as well as a computer. The “WheresTheBus” app securely informs families and students when the bus will arrive at their bus stop, displaying the real-time minutes and miles which is updated every 15 seconds.

Families will receive communication via mail from GoRiteway the week of January 6th which will contain more information about this app, how to download it, and the information needed to log into the system - which will be unique for each family. If you have any questions about loading and using the new app, please e-mail nicoletareapp@goriteway.com with your student’s full name, school location and a brief description regarding your question.

ROLLERSKATING AT PARKWAY

The students had a great time participating in our roller skating unit. I would like to thank all of our parent and community volunteers for making this unit so successful.

HOUR OF CODE

Parkway students loved participating in the Hour of Code (HOC) facilitated by our librarian, Mrs. Gallitz. The HOC is an introduction to computer science, designed to demystify “code” to show that anyone can learn the basics, and to broaden participation in the field of computer science. HOC helps nurture problem-solving skills, logic and creativity.
